

Chica and Heinz Schaller Foundation Symposium

Schaller Research Group Leader Positions in Neurosciences

Program Friday, January 27th 2017

venue: BIOQUANT, Im Neuenheimer Feld 267, Heidelberg, Greenier Hall

talk: 25 min incl. discussion (15-18 min for presentation)

09:00	Acuna Goycolea, Claudio (Stanford Medical School, Stanford, USA) <i>"Presynaptic function in health and disease"</i>
09:25	Imlach, Wendy (Sydney Medical School, Australia) <i>"Identification of dorsal horn subcircuits involved in neuropathic pain"</i>
09:50	Beckervordersandforth, Ruth (Institute of Biochemistry, FAU Erlangen) <i>"Adult gliogenesis and astrocyte functional heterogeneity in the hippocampus"</i>
10:15	Agarwal, Amit (Johns Hopkins School of Medicine, Baltimore) <i>"Mitochondria enable microdomain calcium signaling in astrocytes"</i>
10:40	Coffee break
11:00	Lur, Gyorgy (Yale School of Medicine, New Haven) <i>"Signal integration in the mammalian neocortex"</i>
11:25	Mayer, Christian (NYU Neuroscience Institute, New York) <i>"Inhibitory projection and interneuron diversity is generated through parallel genetic trajectories of forebrain progenitors"</i>
11:50	Sato, Tatsuo (Institute of Neuroscience, TU Munich) <i>"Probing the function of lateral connectivity in visual cortex"</i>
12:15	Lunch
13:00	Interview sessions (closed session for candidates and selection panel)
15:30	Selection panel meeting (closed session for panel members only)

Note: Dr. Annarita Patrizi (Harvard University) has been interviewed remotely on Jan 12, 2017.
