

Chica and Heinz Schaller Foundation Symposium

Schaller Research Group Leader Positions in Virology
Chica and Heinz Schaller Förderpreis 2017

Program

Thursday, January 26th 2017

venue: BIOQUANT, Im Neuenheimer Feld 267, Heidelberg, Greenier Hall

talk: 25 min incl. discussion (15-18 min for presentation)

- 9:30 Gisa Gerold (Twincore, Institute for Experimental Virology, Hannover)
"Virology meets quantitative proteomics: Virus entry factor discovery and beyond"
- 9:55 Lara Manganaro (Icahn School of Medicine at Mount Sinai, New York)
"HIV and T Memory Stem Cells: a Dangerous Liaison"
- 10:20 Lin Qu (Baylor College of Medicine, Houston)
"Human Intestinal Enteroids: A Novel Infection System for Human Noroviruses and Other Enteric Viruses"
- 10:45 Coffee Break
- 11:05 Nicholas Taylor (C-CINA, Biozentrum, Universität Basel)
"Structural investigation of the infection pathway of a contractile injection system by high-resolution cryo-electron microscopy"
- 11:30 Viet Loan Dao Thi (The Rockefeller University, New York)
"Stem cell-derived cellular systems for the study of hepatitis E virus and beyond"
- 12:00 Lunch
- 12:45 Interview sessions (candidates and panel only)
- 14:30 Board meeting (board members only)
- 16:30 **Chica and Heinz Schaller Research Award 2017**
Welcome
Laudatio: Hans-Georg Kräusslich

Award presentation to Matthias Fischer (Max-Planck-Institut for Medical Research, Heidelberg) and award lecture

"Viral giants and their hyperparasites: a glimpse into the fascinating world of protist viruses"
